

CRUISE2 Industrial Grade Mobile Terminal

New generation Cruise, a new leap

Inherit the excellent genes of CRUISE 1 with good grip and easy operation and improve them in an all-round way

Double performance

Experience optimization

Durability boost

More accurate

New CRUISE new upgrade

Stronger

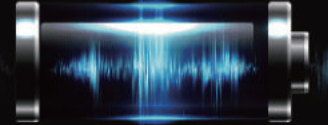

The CPU performance is improved by 100%, the business APP runs more smoothly, and the field work does not stutter.

Advanced Wi-Fi 6 ready technology in the industry, the power consumption is as low as 2mA, the latency is as low as 2ms, and the data concurrency capability is improved by 400%. The coverage is wider and the transmission distance is longer. It is also applicable to large warehouses with dense three-dimensional shelves.

Longer

Large 5000mAh/6000mah (optional) battery, extended battery life from 10 hours to 14/16 hours
Body reinforced again, high-level industrial protection configuration, IP67 dustproof and waterproof, 1.5m drop

Battery life can last up to 14 hours

Better experience

Combined with ergonomics, the appearance design presents the natural radius of the curved surface and realizes the golden grip experience.

The screen is upgraded to 5.5 inches, can present more content, and the business APP

More accurate

Upgraded scanning technology, DPM, high-density, damaged, stained, screen and other bar codes can be successfully identified from multiple angles at one time

With OCR recognition solution and AI technology support, the recognition of numbers and characters is more accurate than the conventional OCR solution.

Dual-frequency GPS, more accurate positioning, positioning accuracy between dense buildings can also be improved by nearly 1 meter

Optional Accessories

Protective case

Pistol Grip

Single device charging cradle

Five-slot device charging cradle

4 batteries charger
